

Eduardo da Silva Seixas

AI Evaluation, Data Training, Science Education, Applied Research & Technical Content

Pelotas, RS, Brazil | Remote | Open to international opportunities

eduardosseixas89@gmail.com | +55 (53) 99104-7337 | [LinkedIn](#) | [Visual AI Portfolio](#)

Professional Portfolio: eseixas89.github.io/ai-evaluation-portfolio/

PROFESSIONAL PROFILE

AI evaluator, data trainer, scientific educator, academic reviewer, and applied researcher with current experience at FlyRank AI and SME Solutions Group / Blue Mantis, plus project-based evaluation work for Mercor and Alignerr. Combines rubric-based model evaluation, multilingual quality analysis, scientific methodology, instructional design, and responsible AI education. Reviewed 140+ undergraduate theses for logic, coherence, evidence, and conceptual accuracy; trained 71 educators in AI literacy; completed three funded scientific-initiation fellowships and multiple applied education-technology projects. Fluent in Portuguese, English, and German.

Target roles: AI Evaluator, LLM Quality Analyst, AI Data Trainer, Multilingual QA Specialist, AI Training Specialist, Chemistry/STEM AI Expert, AI Education Specialist, Technical Content and Research Specialist

CORE EXPERTISE

AI Evaluation & Quality: LLM output review; rubric-based assessment; comparative evaluation; response ranking; instruction-following; reasoning quality; factuality; hallucination awareness; prompt evaluation; structured feedback; human-in-the-loop review.

Data & Multilingual QA: Text-data review; categorization; consistency; relevance; completeness; accuracy; guideline compliance; localization and cultural-quality analysis in Portuguese, English, and German.

AI Education & Responsible Use: AI literacy; model capabilities and limitations; prompt design; workshop facilitation; output verification; ethical use; privacy and copyright-risk awareness; educational adoption of generative AI.

Scientific Research & Analysis: Qualitative and quantitative research; pedagogical intervention; questionnaire design; thematic analysis; evidence synthesis; scientific writing; argument and claim review.

Instructional, Editorial & Visual Design: Learning-object development; information architecture; storyboarding; educational scripts; Moodle; long-form editorial organization; AI-assisted visual generation, curation, and quality evaluation.

Tools & Systems Knowledge: Python fundamentals; pandas; NumPy; JSON; Excel; Google Sheets; Typst; Moodle; ChemSketch; NotebookLM; Gamma; Suno; ChatGPT; Claude; Perplexity; API fundamentals; MCP concepts; agent skills; subagents.

PROFESSIONAL EXPERIENCE

AI Intern - FlyRank AI | Remote | Jun 2026 - Present

- Evaluate and improve AI-generated responses in General AI Fluency tasks using structured criteria for clarity, reasoning, instruction-following, usefulness, and user-facing quality.
- Write concise, actionable feedback identifying gaps, inconsistencies, unsupported claims, and opportunities for improvement.
- Apply rubric-based judgment across varied prompts and response styles while maintaining consistency with project instructions and quality thresholds.
- Map human-AI workflows, define what good completion looks like, and document reproducible evaluation and collaboration processes.

Data Trainer - SME Solutions Group, Inc. / Blue Mantis | Remote contract | Mar 2026 - Present

- Perform data-training and quality-assessment tasks for AI-related workflows.
- Review, categorize, and evaluate textual data against project guidelines and quality criteria.
- Apply consistency, relevance, completeness, and accuracy checks to support dataset and model quality.

Generalist AI Evaluator - Mercor | Remote short-term project | May 2026

- Evaluated model outputs for reasoning quality, writing quality, factuality, and instruction-following.
- Compared responses using structured rubrics and delivered concise, evidence-based quality judgments.

AI Evaluation Contributor - Alignerr | Remote short-term project | May 2026

- Contributed to an evaluation project involving aviation radio communication between pilots and air traffic control.
- Assessed speech and transcription ambiguity, overlap, temporal boundaries, and domain-specific interpretation in audio-related tasks.

Independent Scientific Educator, Academic Reviewer & AI Literacy Trainer | Freelance and project-based collaborations | 2016 - Present

- Reviewed 140+ undergraduate theses for logical coherence, argument structure, conceptual accuracy, evidence quality, and readability.
- Identified reasoning gaps, unsupported claims, structural inconsistencies, fallacies, and non sequiturs across STEM and education topics.
- Designed and delivered AI literacy training for 71 educators across municipal, state, and federal public-school networks in Brazil.
- Created and reviewed scientific education materials, instructional sequences, presentations, and long-form documents with emphasis on clarity, applicability, accessibility, and pedagogical usefulness.

SELECTED AI, EDUCATION & VISUAL PROJECTS

Generative AI Workshop for Teacher Education - Applied Research Project | IFSul/CAVG | 2025

- Designed, piloted, delivered, and evaluated workshops for pre-service teachers and practicing educators; the applied workshops formed the empirical basis of the postgraduate specialization research.
- Developed hands-on activities using NotebookLM, Gamma, and Suno for academic-text analysis, visual presentations, and multimodal educational resources.
- Guided participants in prompt formulation, output comparison, source verification, critical evaluation, and responsible use of AI in education.
- Collected participant forms, researcher observations, and workshop-generated artifacts; organized evidence through thematic qualitative analysis.

Evidence: Institutional research paper, workshop sequence, public oral presentation, participant outputs, and IFSul records.

AI Visual Generation and Evaluation Portfolio | Independent | 2026 - Present

- Produced and organized 98 public AI-assisted works spanning photographic noir, city pop, character design, historical concepts, and narrative environments.
- Applied iterative prompting, output comparison, curation, and refinement; evaluated brief alignment, composition, lighting, anatomy, visual artifacts, narrative coherence, and aesthetic consistency.
- Used original AI-assisted visuals to reduce reliance on third-party imagery in educational presentations, research communication, and narrative projects.
- One published work received approximately 2,700 platform views; portfolio is publicly verifiable on DeviantArt.

AI Workflow Audit and Evaluation Portfolio Architecture | FlyRank AI internship projects | 2026

- Mapped recurring tasks into human-only, AI-assisted, collaborative, and automation-ready categories, with explicit criteria for quality and human review.
- Developed a portfolio proof statement, evidence-driven sitemap, and repeatable case-study structure covering context, criteria, findings, evidence, verdict, and human-AI workflow.

ChemSketch-Based Chemistry Learning Intervention | IFSul/CAVG | 2023

- Designed a pedagogical intervention using ChemSketch and the Three Pedagogical Moments to make atomic structure, periodicity, and chemical bonding more visually accessible.
- Applied open- and closed-question feedback instruments with first-year technical high-school students and analyzed qualitative and quantitative responses.
- 85.7% of participants rated the combined methodology and software as productive for learning.

Moodle Learning Objects Research | IFSul/CAVG | Aug 2017 - Jul 2018

- Contributed to the customization and production of learning objects for the Moodle virtual learning environment through a funded research fellowship.
- Presented the project at the V Scientific Production Journey for Professional and Technological Education in Southern Brazil.

Digital Tools for Science and Biology Education | IFSul/CAVG | Aug 2018 - Jul 2019

- Participated in funded research on digital tools as facilitators for science and biology teaching, connecting technology selection with pedagogical purpose and classroom applicability.

Active Methodologies for General Chemistry with Simulators | IFSul/CAVG | Sep 2023 - Aug 2024 | 12 hours/week

- Investigated student perceptions of atomistics and molecular interactions taught through simulators and active methodologies.
- Supported research design, evidence collection, analysis, and communication of findings in a scientific-education context.

Peach-Pit Reuse for Activated-Carbon Production | IFSul/CAVG | May - Dec 2016 | 528 hours

- Contributed as a volunteer researcher to a sustainability project investigating peach-pit reuse for activated-carbon production and potential social and environmental applications.

RESEARCH & ACADEMIC EXPERIENCE

Research Fellow - Scientific Initiation | IFSul CAVG | Three funded fellowships | 2017 - 2019; 2023 - 2024

- Completed research cycles in Moodle learning objects, digital science and biology education, and simulator-supported General Chemistry.
- Worked with research questions, literature review, intervention planning, data collection, analysis, scientific writing, and presentation of results.

Course Monitor - Methodologies and Management in Distance Education | IFSul CAVG | Oct - Dec 2017 | 60 hours

- Supported course delivery, learner guidance, activity organization, and distance-education methodology in an institutional training context.

EDUCATION

Postgraduate Specialization in Science and Technology in Education | IFSul CAVG, Pelotas, Brazil | 2024 - 2025

- Final research: Artificial Intelligence in Education: Support Tools for Teaching Practice.
- Applied qualitative study centered on generative-AI workshops, teacher perceptions, prompt practices, reliability, ethical use, and pedagogical integration.

Licentiate Degree in Chemistry | Instituto Federal Sul-rio-grandense - IFSul CAVG | 2015 - 2024

- Undergraduate thesis: Exploring Chemical Bonds and Periodicity with ChemSketch Software: A Three-Stage Pedagogical Approach.
- Professional registration: CRQ-V - Conselho Regional de Quimica, Brazil.

SELECTED PUBLICATIONS, PRESENTATIONS & RECOGNITION

- Oral research presentation: Artificial Intelligence in Education: Support Tools for Teaching Practice - IFSul/CAVG, Oct 1, 2025.
- Seixas, E. D. S.; Brod, F. A. T.; Moreira, M. I. G. "Customization and Production of Learning Objects for the Moodle Virtual Learning Environment." Presented at the V Scientific Production Journey, IFC Campus Concordia, Dec 2018.
- Featured poster distinction - 11th Scientific and Technological Initiation Journey, IFSul Passo Fundo, Oct-Nov 2018.
- Applied educational-research findings on ChemSketch and the Three Pedagogical Moments, including a documented 85.7% positive participant rating.

ACADEMIC LEADERSHIP & EVENT ORGANIZATION

- Organizer - II PPGCITED Progress Seminar, IFSul CAVG, 2023 | 48 hours.
- Organizing Committee - 14th Sul-rio-grandense Symposium of Science and Mathematics Teachers, 2019 | 80 hours.
- Organizing Committee - 8th FECIMES Science, Mathematics and Knowledge Fair, 2019 | 80 hours.
- Organizing Committee - 12th International Congress of Sciences and Technologies in Education, 2016 | 40 hours.
- Organizing Committee - II SALiCiN Academic Week of Natural Sciences, 2016 | 60 hours.
- Organizing Committee - IV National Seminar on Science, Technology and Innovation (NAPNE), focused on inclusion, accessibility, and social development, 2015 | 80 hours.

Documented organization workload: 388 hours across academic, scientific, education, and accessibility-focused events.

SELECTED ACADEMIC PARTICIPATION

- PPGCITED Seminars I-IV - volunteer participant, 2022-2024; II Seminar attendee, 2023 | 8 hours.
- V Scientific Production Journey - participant and presenter, 2018 | 10 hours.
- 14th Sul-rio-grandense Symposium of Science and Mathematics Teachers, 2019 | 40 hours.
- IV Gaucha Exhibition of Educational Products, 2019 | 40 hours.
- V Graduate Studies Forum, 2019 | 40 hours.
- 36th EDEQ Chemistry Education Meeting, 2016 | 20 hours.
- II SALiCiN Academic Week of Natural Sciences, 2016 | 20 hours.
- Tchelinux Pelotas Free Software Seminar, 2017 | 6 hours.

CERTIFICATIONS & TECHNICAL DEVELOPMENT

AI Foundations - OpenAI Academy | 2026 | Credential ID 4urimabp0y

- Formal coursework covering foundational concepts and responsible use of artificial intelligence.

Anthropic AI Fluency & Education Path | 7 certificates | 2026

- Framework & Foundations; Capabilities & Limitations; AI Fluency for Builders, Educators, Students, and Nonprofits; Teaching the AI Fluency Framework.

Anthropic Claude Platform, API & Agentic Systems Path | 11 certificates | 2026

- Claude 101; Claude Platform 101; Claude with the Anthropic API; Claude Code 101; Claude Code in Action; Introduction to Claude Cowork; Introduction to Model Context Protocol; MCP Advanced Topics; Introduction to Agent Skills; Introduction to Subagents; Claude with Amazon Bedrock.

Additional Development

- Introduction to Japanese Language - Mariana Sensei Cursos | 12 hours | Feb 2023 | Credential KDXAL8-CE001439.
- Tchelinux Pelotas Free Software Seminar | 6 hours | Jun 2017.

LANGUAGES

Portuguese: Native

English: Fluent

German: Fluent

French and Italian: Reading proficiency

Russian and Japanese: Basic

TOOLS & WORKING METHODS

- Evaluation methods: Rubrics, anchor examples, comparative ranking, error taxonomy, quality thresholds, structured rationales, human-in-the-loop review, calibration, and audit trails.
- Data and productivity: Python fundamentals, pandas, NumPy, JSON, Excel, Google Sheets, Google Workspace, Microsoft Office, Typst, VS Code.
- AI and content systems: ChatGPT, Claude, NotebookLM, Perplexity, Gamma, Suno, Moodle, ChemSketch; API, MCP, agent-skill, and subagent concepts.
- Editorial and visual work: Long-document structure, information hierarchy, instructional scripting, storyboard principles, visual briefs, prompt iteration, output curation, and responsible image use.

PORTFOLIO & PROFESSIONAL LINKS

LinkedIn: [linkedin.com/in/eduardo-seixas89/](https://www.linkedin.com/in/eduardo-seixas89/)

Visual AI Portfolio: [deviantart.com/epyon89](https://www.deviantart.com/epyon89)

EVIDENCE & ARTIFACT INDEX

- AI education research: complete 59-page postgraduate paper; workshop structure; pilot and applied-session records; participant forms and outputs; public oral-presentation announcement; institutional supervision and IFSul documentation.
- Chemistry education research: complete 55-page undergraduate thesis; pedagogical-intervention plan; participant questionnaires; charts and qualitative responses; degree-completion record.
- Funded research: institutional attestations for Moodle learning objects (2017-2018), digital tools for science and biology (2018-2019), and active methodologies with simulators (2023-2024).
- Scientific communication: presenter certificate for the V Scientific Production Journey; featured-poster distinction from the 11th Scientific and Technological Initiation Journey.
- Academic service: organizer certificates for NAPNE, SALiCiN, FECIMES, the International Congress, the Science and Mathematics Teachers Symposium, and the PPGCITED Progress Seminar.
- Public visual evidence: DeviantArt profile with 98 AI-assisted works, thematic galleries, publication dates, platform metrics, and selected work pages.

WORKING STYLE & AVAILABILITY

- Remote-first, documentation-oriented, comfortable with asynchronous collaboration, written feedback, structured guidelines, and independent delivery.
- Strong preference for measurable criteria, transparent rationales, reproducible workflows, and explicit escalation when evidence or instructions are insufficient.
- Available for full-time international remote work, contract projects, and multidisciplinary collaborations involving AI quality, scientific content, education, or research.

This extended CV is the complete source record. For applications, use a role-targeted two-page resume and attach the selected evidence portfolio when appropriate.
